

	Niveles cognitivos (grado de adquisición de la competencia)		
Contenidos	Proceso I	Proceso II	Proceso III
Contenido A	Descriptores	Descriptores	Descriptores
Contenido B	Descriptores	Descriptores	Descriptores
Contenido C	Descriptores	Descriptores	Descriptores
Contenido D	Descriptores	Descriptores	Descriptores

The diagram illustrates the cognitive levels for four content items (A, B, C, D) across three processes (I, II, III). The table shows that Content C has 'Descriptores' in red in Process I, while all other cells are grey. Blue and green arrows indicate relationships between processes and content items.

- A red arrow points upwards from the 'Descriptores' cell in Process I for Content C to the 'Descriptores' cell in Process I for Content B.
- A blue arrow points upwards from the 'Descriptores' cell in Process II for Content B to the 'Descriptores' cell in Process II for Content A.
- A green arrow points upwards from the 'Descriptores' cell in Process III for Content D to the 'Descriptores' cell in Process III for Content C.
- A blue arrow points left from the 'Descriptores' cell in Process I for Content B to the 'Contenido B' cell.
- A red arrow points left from the 'Descriptores' cell in Process I for Content C to the 'Contenido C' cell.
- A green arrow points left from the 'Descriptores' cell in Process III for Content D to the 'Contenido D' cell.
